The Anti-Irust Lawyers Zilled Their Dwn Case!

For ton years the anti-trust lawyers have been attacking the business methods that make it possible to give the public the best quality food at the lowest prices.

In our last ad we told you how Federal Judge W. H. Atwell, at Dallas, threw the antibrust lawyers and all their inflammatory charges against A&P right out of his court.

But the anti-trust lawyers were not satisfied with decisions against them by three federal judges.

They still wanted to destroy A&P.

They Appealed to New Orleans

So they appealed Judge Atwell's decision to the three-judge Circuit Court at New Orleans.

One of the three, Judge Curtis L. Waller, agreed with Judge Atwell that the case should be dismissed.

The other two members of the Circuit Court, Judge Joseph C. Hutcheson, Jr., and Judge Allen Cox, although saying the case should be tried, agreed that the indictment was vague and contained many allegations which were

They decided that Judge Atwell at Dallas should protect A&P from these inflammatory allegations and could order the anti-trust-lawyers to supply the defendants with a bill of particulars.

So the case was back in Dallas again.

Judge Atwell, carrying out the decision of the Circuit Court, struck out the inflammatory matter.

He said that without this inflammatory and prejudicial matter the Grand Jury might never have returned the indictment.

Judge Atwell said to the anti-trust lawvers:

"There are many statements in the indictment which are not at all in violation, and are highly prejudicial and inflammatory."

The anti-trust lawyers objected. They advanced an amazing argument. They said that the removal of their inflammatory allegations (which all four judges had agreed did not belong in the indictment) destroyed their case.

Judge Atwell instructed the anti-trust lawyers to furnish the court with a bill of particulars. In short, he wanted specific charges instead of vague generalities. He set the deadline for furnishing this material

When the anti-trust lawyers twice asked for more time, pleading sickness among their staff, Judge Atwell extended the time to February 25th because he believed that they were honestly trying, in good faith, to prepare the material he had requested.

Actually, it developed, they were using the time to get ready to drop the case in Dallas and start it in another court.

On February 26th, while the judge was still waiting for his answer, and without any previous notice to him, the anti-trust lawyers gave a story

They said that it was their intention "to file a substantially similar suit in an appropriate jurisdiction at an early date."

The "early date" turned out to be the same day.

As soon as one anti-trust lawyer killed the case in Dallas, another antitrust lawyer filed a new case in Danville, Illinois. This new case made most of the same allegations that had been made and dropped in Dallas: and that are being made against us today.

ruled on the Dallas case were wrong.

Despite defeats in three federal courts in widely separated parts of the country, they continued their campaign to destroy A&P.

to prepare an order for his signature dismissing the Dallas case.

In signing this order he said to the anti-trust lawyers:

"This nolle prosequi does not have the sanction or approval of this court. That is not necessary, nor that the government ask for the court's approval

may be of interest to the people at large."

So after their efforts to destroy A&P had failed in Washington, D. C., Wilson, North Carolina, and Dallas, Texas, the anti-trust lawyers moved on to Danville, Illinois.

They Were Wrong Three Times Before

Three times the anti-trust lawyers went into federal courts and made serious and damaging charges against A&P.

Three times federal judges said the anti-trust lawyers were wrong and rendered decisions against In previous ada in this series we-told you about these other anti-trust "cases" involving us, which the judges said were not cases at all.

We think you should know about these previous cases, because once again the anti-trust lawyers are making damaging "allegations" that could seriously affect our business if they were believed by the public.

There was the time in Washington, D. C., when they said we and other good American citizens conspired to fix the price of bread in that city.

This was the time Federal Judge T. Alan Goldsborough ruled that A&P and the other defendants did not even need to put in a defense. He instructed the jury to bring in a verdict of "not guilty".

It was the time Judge Goldsborough said to the antitruot lawyers:

"If you were to show this record to any experienced trial lawyer in the world, he would tell you that there was not any evidence at all.

"Roneotly, I have never in my over forty years' experience seen tried a case that was as absolutely devoid of evidence as this. That is the honest truth.

I have never seen one like it."

There was the time in Wilson, North Carolina, they said we and other good American citizens conspired to fix prices paid farmers for their potatoes.

This was the time Federal Judge C. C. Wyche directed the jury to bring in a verdict of "not guilty". It was the time Judge Wyche said to the anti-trust

In my opinion there is no testimony produced from which it can reasonably be inferred that the defandanta entered into a combination to depress or lower the price of potatoes.

"I might say that I never tried a case in my life where a greater effort, more work, more investi-gation had been done, combing almost with a finetooth comb to gather evidence.

"But, ao was said a long time ago, you can't make brick without straw, and you can't make a case vithout facto."

There was the time in Dallac, Texas, whom they made practically the same "allegations" they are making

This was the time Federal Judge W. H. Atwell ruled that the case should not even be tried. He said that the indictment contained inflammatory statements that he would not permit to be presented to a jury.

It was the time Judge Atwell said to the anti-trupt

"I know of no American rule, and I wish I had the nower to undercore the word 'American,' which permits us to try a man because of his size,

"If I thought I was preciding over a court and that I might have to centence come person because he was a great big fellow, or because he was a Lilliputian, I would feel like resigning. God knows we don't want it ever to occur in America that the else to going to determine whether a man is guilty or innocent."

to the newspapers in Washington, announcing that they were dropping

So now, according to the anti-trust lawyers, all four judges who had

When Judge Atwell heard of their action he ordered the anti-trust lawyers

"It is, however, a matter that may be presented to the other court and

They were still determined to destroy this company which had brought more and better food at lower cost to millions of American families.

more hurried to high ground from river bottoms in Illinois. Each time the headlines meant tragic personal loss or loss of thousands of dollars in property. What of those families whose losses far outstripped their re-sources, who lose everything and had no savings, no insurance no credit to fall back on?

There's an answer to that. They have one resource they never realized before—the neighborliness of the American people expressed through the American Red Cross. When a Red Cross disaster worker arrives at the wreckage of

a modest home and begins to estia modest heme and begins to estimate the cost of repairing it and replacing furniture ruined by flood waters or tornadic winds, he knows sooner or later he will be asked the invariable question: "How long do we get to pay you back?" Despite the fact that the Red Cross has been helping disaster victims in exactly this same way for more than a half a century people in general still do not tury, people in general still do not understand that the Red Cross comes as an emissary of the American people—to give, not to

Stater-caused injuries or illness.
Vocational retraining is considered where the breadwinner is unable to work at his former job.
All of the plans worked out with

All of the plans worked out with the family are gathered into workable form, then are presented to a volunteer hometown advisory committee. Identified only by number by the case worker, the family plans are scrutinized by the committee which makes the recommendations for payment. Red Cross checks or disbursing lorders for amounts ranging from

orders for amounts ranging from
the cost of a destroyed bleyele for
a boy who helped his mother via
paper route to a complete new
home for a breadwinner are

shortly forthcoming. Families may then purchase goods from merchants of their choice.

But—and this is an important

But—and this is an important point—the worker plans with the family He does not tell the family what it should or must do. An Australian visitor the the United States was highly critical of this practice. Visiting a flood scene, he noted that the Red Cross was rebuilding a home for a family in exactly the same spot where their former home had been—a spot likely to be flooded again in a few years. This he felt should not be permitted. The disaster worker explained American individualism to him. He explained freedom and the Bill of Rights. He talked about Thomas Jefferson and the rights of the individual to disregard advice. He talked about topsoil and the gamble Americans

"But will the Red Cross help anyhody?" peoples frequently ask.

The answer is anybody who has
a disaster-caused need that he
cannot meet through his own re
sources. Of course, the Red Cross
is a careful guardian of the funds
entrusted to it by the public. It
does not carelessly hand out sums
of money to replace luxuries or to
help those who are well able to
help themselves. The Red Cross
disaster worker is a highly skilled
technician. He or she visits a
disaster-stricken family and determines with them what resources
they themselves have and what
they lack. Everything is considered, down to pots and pans
and dishes. Medical bills are considered where the family has disaster-caused injuries or illness. You can purchase a bank money order up to \$10 for only 5 cents. You can purchase a bank money order up to \$100 for only 15 cents.

HEY

LOWK

... When you drive up here. While we're filling your gas tank, we're also checking your oil, battery radiator and tires, and cleaning your windshield-all at no extra charge. Our team of friendly servicemen work quickly for your driving comfort. See for yourself. Drive up today!

It's plain arithmetic in part. And yet it is as illusive as magician's rabbit or Alice i Wonderland. Wonderland.

We refer to that little understood thing called inflation.

Every dollar you saved in 1939 and put in the bank, or into defense bonds, or an insurance annuity or anything else in fact, is not worth a 1939 dollar today. It is worth only 59 cents.

"What happened to the other United Press Mr. Babson says that more inflation depends on two depe Well, part of that might be considered to be a tax we paid to preserve our freedom. The government—and that means all of uspent money freely to win the recent war. And war is utterly destructive. It destroys material wealth as well as human lives. It led us inevitably to a staggering national debt, now at 257 billions. Part of the 41 cents may be said to be due also to postwar treasury.

Fart of the 41 cents may be said to be due also to postwar freasury deficits caused, in part at least, by social reforms—public housing, for example, whereby we, the government. agree to subsidize rents of low income workers. f our wars?' Roger Babson, the noted eco-mist, thinks we will.

This would mean that our 1939 dollar, instead of being worth 59 cents, might go down to 50 or 25 and even a lower sum. At 50 cents, your 1939 savings will be worth one half. You would need and other indirect national de fense benefits.

There is no doubt that a third world war, with its frightful waste At 25 cents your income would WEDNESDAY FEB. 22

fect.

Hence the prediction that the average American family may have an annual income of \$12,000 by the year 2000—another 50 years in fact—is not fantastic. That is if we get mixed up again in another global conflict or if we continue down the road to socialism As we see it, either of thes

coolectures a favored feet pay little or nothing

Because certain big business corporations are excused from paying all or most of federal income taxes on their business incomes, you and all the rest of us have their share added to what we must pay. These tax-favored corporations are Cooperatives, Foundations and similar organizations that engage in commercial business for profit. Together they dodge almost a BILLION DOLLARS in federal income taxes every year. Co-ops, alone, do close to \$17 billion in business volume, the profits from which are largely tax-exempt. It is time to end this injustice.

Right now, Congress is asked to increase income tax-rates on presont taxpayers in order to meet the mounting cost of government. et these tax-exempts still avoid paying their share. It's time to

ANNE NELSON,

The Probate Court for tho
County of rawford.

At a session of said Court, held at the Probate Court in the City of Grayling in said County, on the 6th day of February A. D. 1950.

Present, Hon. Ray F. Clement.
Judge of Probate.

In the matter of the Estate of Jeanne Babbitt, Deceased.
Dan C. Babbitt having filed in said Court his petiton praying that the administration of said estate be granted to Helen Babbitt or to some other suitable person.

It is Ordered, that the 6th day of March A D. 1950, at 10 o'clock in the forenoon, at said Probate Office, be and is hereby appointed for hearing said petition.

It is Further Ordered, that public Notice thereof be given by publication of a copy of this order, once each week for three success vice weeks previous to said day of hearing in the Crawford Avalanche a newspaper printed and circulated in said County.

Ray F. Clement,
Judge of Probate.

The works, and the price of Sumber is more than a hundred dollars a thousand.
Back in the old days a man worked ten or twelve hours for a buck and a half, and lumber was worth ten dollars per thousand. He could also buy a suit of red flannel underwear for fifty cents. As for the "correct" definition of the name "Lumberjack," that goes back a long ways, back to the spirit of fellowship between men of goodwill. A woodsman was instantly recognized by his garb, and the natural greeting was "Hello Jack!" You might learn his real name afterward, but the first time you saw him his name was "Jack" and the country grew up with it. It was a noble calling, and designated a type of man who was proud of his word and of hearing in the Crawford Avalanche a newspaper printed and circulated in said County.

Ray F. Clement,
Judge of Probate.

There were Trades in those days too, and a man could be a sawyer, teamster, canthook-man or swamper.

GIRL SCOUT NEWS

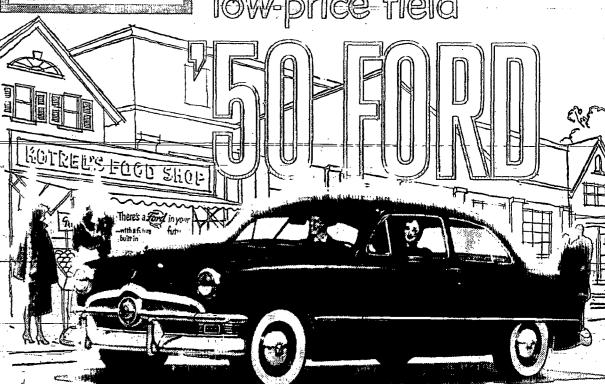

Girl Scout Troop No. 4 had a Valentine party for their mothers on February 9. Some of the girls

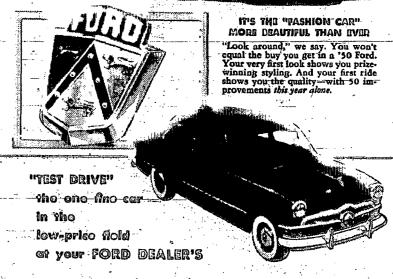

Was appointed as Community Seligh ride, when the weather is just right as it was Wednesday evening, February 15. Of course no one else but 12 Girl Scouts of Troop 4. The evening was perfect, being warm with a light falling snow. Each girl brought a friend, boy or girl making the total almost 40. We were divided into two groups and while one group was on the sleigh ride the other skated and then later they exchanged. Transportation was furnished to and from the Grayling Winter Sports Park. where we can and will say, we truly enjoyed

Do You Want To Cut Your Fedoral Taxes?

Something For Nothing

You know that you can't keep drawing money out of your bank account without ever putting any The bank doesn't play that way. This is also true of Federal financing. Every dollar spent must form of taxes:

Many of these taxes are hidden, such as the \$2.44 you pay on a \$80 radio, or the 62 cents on the average clarm clock. These are in addition to the direct taxes of which the average citizen is painfully aware.

Tax money to Tax money in necessary to renour government. But all too much of it is wasted by inefficiency, duplication of effort, overlapping of Federal agencies or appropriations for services to pressure groups.

Heretofore, no one has known how much these government corvices cost us through waste and inefficiency. But some surprising facts have been revealed by the Commission on the Organization of the Executive Branch of the Govornment. This twolve-man, bi-partisan Commission was created by Congress with the approval of of Mr. Truman, former President Hoover was made its Chairman.
The Army, Navy, and Air Force

asked for \$80 billions of appropria-tions after being told that \$15 billions was all the Nation could afford. The Army applied for 829,-000 tropical uniforms at 8129 apice and homes for military personnel in Alaska at \$58,000 apiece. Yet every dollar spent in such activities comes out of your pocket in the form of taxes.
Fifty Federal agencies jostko

each other collecting statistics at ca annual cost to you, the taxpayor, of \$48,000,000. Many of the statistics are of use only to small groups, or collect dust in government files. The Corps of Army Engineers

and the Bureau of Reclamation are expert at selling the "something for nothing" idea to the American public. Underestimation of coats appears to be their specialty. The original price tag put on the Colorado-Big Thomson project was \$44 millions. Its final cost was \$181,800,000. Such discrepancies, the Commission wryly notes, "hardly can be explained by increased in labor and material costs."
You may obtain information

about how you can fight waste and inefficiency in our government by writing to the Citizens Committee for Reorganization of the Executive Branch of the Government 1421 Chestnut Street, Philadelphia 2, Ponna. Also write your Coa-gressman! Tell him you want laws enacted which will put into effect the suggestions of the Commission!

Almosi Oxlateliki A

By Richard Hill Wilkinson

ARON JORDAN had a swell job writing advertising for a Chicago agency. The night he came home and told Sally, his wife, that he was going to quit because he wanted to write movie scenarios, she thought he'd been drink-

ing.
"Either that," she said, "or you're crazy."
"Correct," said Aaron. "Just crazy enough to be able to write

good scenarios. You've got to be notualM - @ erazy to get by in Hollywood. Joe Fletion Neal told me."

"Are we going to live in Hollywood?" Sally asked.
"Naturally. That's where movies

are made." Sally was young and never had liked the idea of settling down too early in life. Besides, the idea of living in Hollywood was thrilling.
They had a little money saved

up, which was lucky, because after living three months in the cinema city they hadn't made a dime. Aaron had written four scripts, which had almost sold. Almost That one word had become the bane of their existence. It was the one word in Hollywood that drove poople crazier than they were at the

Two months, passed and the Jor dans had almost made a pile of money. The money that they had saved was almost gone. They be-

other fortnight passed bad

Aaron and Sally decided they couldn't evade facts any longer.
Almost selling something didn't buy bread. Aaron's latest story, now in the hands of Pacific coast studios, would, they felt, be re-turned like all the others. Almost good enough would be the comment. They held a council of war. As soon as Pacific Coast returned the story they'd have to quit and go home.

It gave them a sinking, frustrated feeling.

The day after the council of war, Aaron cut his finger while examining a typewriter ribbon in a nearby stationery store. The store manager gave first aid, made a report, took down his name and address and told him an adjuster would be up

When Aaron got home he told Sally about it. "It's a chain store. They're insured against accidents. I'll collect at least \$100."

"But your finger isn't seriously cut."

"So what? Insurance companie have plenty of dough."

The adjuster came early the next morning. They knew him to be an insurance man by the benign, in-

proticting look on his face. "Cut your finger?" he asked.
"And pretty badly, too," Aaron eplied. He glanc d at Sally. She as eyeing him a verely. as eyeing him s verely.

"But your finger isn't serlously out."

didn't approve of what he planned to do. "How'd it happen?" Aaron gave

detailed account of the accident. "Too bad. Bother you about working?"

ARON HESITATED. This was the crucial moment. He could say the wound practically incapacitated him. He could strong, and perhaps collect \$50. was regarding him steadily. He didn't like the look in her

eyes. It made him feel small and cheap. shrugged, "No. I can work all

right. It isn't anything serious. visitor looked relieved. "Good, I have a proposition to make. We didn't like your latest story especially." "Eh?" said Aaron.

"Too farcical. But Jackson, he' our story man. Sent me up here to ask if you'd consider going to work for us. You see, we think you write pretty good dialogue. We need a dialogue writer."

Aaron gulped. "Then—you're not

I mean—"
"At what salary?" Sally asked

practically.

"Well, I'm authorized to offer

61 million dollars. Williams proposed a tax on corporation profits to raise 60 million.

The legislature appropriated 278 million dollars, cutting 12 million dollars off the total of appropriations as recommended by Governor Williams.

Controller Steadman observes controller Steadman observes that revenues for the present fiscal year, ending July 1, 1950, will be 2 or 3 percent in excess of the estimates made in January, 1949. This will amount to another 5 or 6 million dollars but it will still leave. Michigan short by more than \$40,000,000 in the general fund along to meet expenditures of state

alone to meet expenditures of state government including state aid to local governments.

The Williams corporation profits tax would be paid by corporations on the pro rata share of business

on the pro rata share of business done by each corporation in Michigan. Controller Steadman explains that this pro rata share is figured on three bases. One-third of the share is based on the percentage of wages paid in Michigan as compared with all wages paid by the corporation; one-third by property in Michigan in relation to total property owned: and onetotal property owned; and one-third by sales in Michigan in com-parison to total sales.

"I will give you an example of one corporation which is complaining about the 500 and some millions of dollars it pays the United States government in taxes each year. That corporation pays to the general fund of the State of Michigan a total of \$50,000 a year in taxes.

in taxes.
"It is paying to the general fund
of Michigan \$1 for every \$10,000
that it pays to the United States
government. Yet, about half of
its total number of wage earning
employees are in Michigan.

"That corporation after paying "That corporation after paying all taxes, federal, state and local, earned in 1948 440 million dollars. The current reports are that the estimated net income after all taxes in 1949 was 640 million," said Steadman.

When the state legislature convenes at Lansing March 15 for the transing legislature on the procedure of the proc

special session on state finances, the state corporation profits tax will again be pushed by Governor Williams as an effective solution of

According to Steadmen, 32 other states in the Union now have such a corporation revenues tax. The Williams plan would hit large cor-Mrs. Oscar Baker, Mrs. John L. porations, not small corporations.

Martin and Rudolph Feldhauser.
